District Department of Transportation
55 M Street SE
Suite 400
Washington, DC 20003

My name is Commissioner Salim Adofo. I am the Chairperson of Advisory Neighborhood Commission 8C. Along the corridor of the 3200 - 3500 block of Wheeler Rd Se. there is excessive speeding. This compromises the safety of the residents in the area. I have conferred with the residents at this location. They are in agreeance with the need for speed humps and I concur. We are also requesting speed cameras and rumble strips.

Therefore, I am recommending that the District Department of Transportation conduct a Traffic Safety Assessment. I endorse the Traffic Safety Assessment submitted to address this concern. The service request number is 21-00391074. If you have any further questions, please contact me at (202) 455-6346. Thank you for your time and consideration.

Respectfully,

The purpose of this Questionnaire is for DDOT to gather information about a safety concern in order to perform a Traffic Safety Assessment (TSA). The intent of the TSA process is to ask residents to identify traffic safety concerns, whether along a roadway segment or at an intersection, and focus on the definition of the safety concern(s) rather than on a proposed solution or mitigation measure. Based on the nature of the request, DDOT will determine the type of assessment necessary to investigate the extent of the traffic safety concern.

To begin a Traffic Safety Assessment, please fill out the information below and answer any questions to the best of your ability. If necessary, please attach additional pages. In addition, a letter of support from your ANC Commissioner is **required**. Find your ANC here: <https://anc.dc.gov/>

Once completed, please submit this form and ANC support letter to DDOT via the address provided below, or you can email the form to traffic.safety@dc.gov.
